

MARIO EDWARDS

SPRING GRADUATE 2022

PROFILE

I was born in Jamaica and was raised there until the age of nine, to which I then moved to Canada. At 15, I moved from Canada to the US where I currently reside. I have a passion for nature and life. I have taken many strolls through forests, valleys, mountains and it still amazes me how beautiful it all is. I also have a passion for video games. I have been playing since I was young and have developed quite a liking for strategy, action, racing and roleplaying games. I enjoy learning new things and teaching others how to accomplish the same tasks as well.
